

1.28.19

Dear Neighbor,

This letter goes out to you as a gentle reminder that you are past the time to take down your Christmas decorations. We understand that dates and deadlines are difficult to remember so please use this letter as a reminder.

Commencement of Christmas Decorations

Christmas decorations may be applied to your dwelling on or after November 24th. The only exception is if you can prove direct lineage to Santa Clause or an Elf.

Removal of Christmas Decorations

Decorations should be removed on or before January 1st. It is understood that many suffer from a hangover on January 1st. Because of this, we have implemented an acceptable, generous grace period of up until the first week of January. Any time past that, is unacceptable.

Helpful Decorating Hints

- In November, keep in mind that what you put up, you have to take down. Do you really want to staple that millionth light to the very top of your home, only to take down from a slippery roof in January?
- Under no circumstance is it acceptable to leave your Christmas lights up all year around. Just not turning them on at night. We know you still have your Christmas lights up and can see them in the day. This is trashy.
- Similarly to the last point, just because you no longer blow up the gigantic snowman in your yard, but left him to lay in your yard like a pitiful pond of white, you must remove him too.
- It's acceptable to leave a wintery theme wreath on your door.

If you cannot commit to removing your holiday decorations on or before the date listed above, please reconsider putting decorations up.

Thank you,

Your Neighbor
